$WHALE
$WHALE White Paper V4

I. OVERVIEW

$WHALE is a social currency that is backed by tangible and rare NFT assets, while embodying scarcity through definitive limited issuance.

There will only ever be a maximum of 10 million $WHALE ever created, with the launch value of each $WHALE being underpinned by a basket of some of the rarest and most sought after Non-Fungible Tokens (NFTs) in the industry ("the $WHALE Vault").

NFT Assets in the $WHALE Vault include some of the rarest NFTs from Gods Unchained, Rare Digital Art (CryptoArt), Cryptovoxels, Sandbox, Avastars and CryptoMotors (CM), among others.

A full and detailed list of NFT holdings as well as transaction history can be found at the following address:

https://opensea.io/accounts/0xe7079eec020ddfc3f1c0abe1d946c55e6ed30eb3/

The $WHALE Vault is only one dimension that defines the value of $WHALE as a social currency. More important to the project is the growth of the community, the growth of $WHALE as a brand, and the growth of use cases for $WHALE.

A minimum of 4,000,000 (4 Million) $WHALE will be reserved for community issuance and 1,000,000 (1 Million) $WHALE for rewarding project founding Chief Partners.

All revenues potentially derived from the $WHALE project will be directly reinvested towards accumulating more valuable NFT related assets to drive capital appreciation and community engagement.

$WHALE will create a virtuous cycle of appreciation through the curation, expansion and management of its underlying tangible and intangible assets.

II. MOTIVATION

We live in a world where the average investor has access to two forms of currency: Fiat and Crypto.

When the World abandoned the Gold Standard in the 20th century, Fiat as a currency, lost both the ability to have a provable base of value as well as a potential ceiling to currency issuance.
Without a leash to control scarcity or concrete assets to underpin currencies, the risk of hyperinflation through the excessive printing of new Fiat to "sustain" and "support" economic growth is becoming a reality.

The advent of crypto or cryptocurrencies immediately answered the call for a more disciplined and immutable approach to currency issuance. With a fixed amount of currency issuance already baked into the DNA of Blockchains, holders of crypto can be assured that the issuance will begin, slow down and sometimes, ultimately end.

While crypto resolved the challenges of scarcity, fluctuations in the prices of crypto have made it unrealistic and unreliable as a medium and method of payment. It has instead become a tool for whale traders to assume large high-risk, high-reward positions to take markets on swings of jaw dropping magnitudes.

The lack of a stable asset class to underpin crypto has resulted in it becoming a rag doll, torn between longs and shorts, highs and lows... the rich and the poor.

The floor is as speculative as the ceiling.

$WHALE is a social currency that is backed by tangible and rare NFT assets, while embodying scarcity through definitive limited issuance.

$WHALE is a return to true tangible asset backed currency, that instead of using gold, holds its value in digital art and collectibles, seeking to strike a balance between wealth preservation and growth speculation through a well balanced "basket" of the rarest NFTs (the $WHALE Vault).

There is a key reason why the Super Rich continue to choose to safe harbor their wealth in rare artworks and scarce collectibles: In rarity, you set the price. The older, rarer and more popular the collectible, the stronger your bargaining power and negotiation leverage.

### III. TOKENOMICS

Only a total of 10,000,000 (10 Million) $WHALE will ever be minted.

An overview of the total $WHALE allocation is as follows:

- **Chief Partner and the team:** 10% (Vested over 24 months starting May 2020)
- **Community Distribution:** 42.6% (Distributed at 40,000 $WHALE per month)
- **Private Token Sale Fundraising:** 10% (Vested over 20 months)
- **$WHALE Foundation:** 37.4% (Vested over 120 months)
Out of the total supply, a minimum of $4,260,000 (4.26 Million) $WHALE will be reserved for community issuance and $1,000,000 (1 Million) $WHALE will be reserved for rewarding project founding Chief Partners and the $WHALE Team.

The 4,260,000 (4.26 Million) $WHALE for community issuance can only be earned through a variety of $WHALE community engagement events, selling NFTs to the $WHALE Vault for $WHALE, as well as participating in engagement activities being held by $WHALE partners.

The $WHALE reserved for community issuance will be allocated on a schedule of 40,000 $WHALE per month for a total of 80+ months.

A monthly breakdown of the issuance of $WHALE is as follows:

- $WHALE Team and Partnership Stipends - 10,000 $WHALE
- $WHALE Community Rewards - 10,000 $WHALE
- $WHALE Hold-2-Play Rewards - 20,000 $WHALE

A monthly budget of all $WHALE distributed versus budget will be kept during the month and provided for community inspection on a monthly basis.

Any remaining monthly balance due to the lack of issuance opportunities will be accrued and used at an appropriate and opportune time for one of the 3 activities above.

The $WHALE Foundation is a yet-to-be-named charity trust that will be established to benefit disadvantaged women and children. All $WHALE holdings that WhaleShark has received from the project, deducting for additional operational costs, will be donated to this organization over a long term vesting schedule.

Additional information on the $WHALE Foundation can be found here:

In order to ensure the continued appreciation of the value of $WHALE, we will execute on the following actions:

1. Acquire and retain capital appreciating NFT assets.
2. Sale of NFT assets only at the right prices.
3. Generate rental income from rental of NFT assets.
4. Creation of sales generating related projects.
5. Reinvestment of all revenues to purchase more NFT assets for the $WHALE Vault.

The $WHALE Vault will be audited by $WHALE Chief Partner, Nonfungible.com, on a monthly basis accounting for:

1. Balance of NFT assets in the $WHALE Vault
2. In-flow and out-flows of NFT assets in the $WHALE Vault
3. Valuation of all $WHALE Vault assets based on market conditions and analysis.

This report will be done independent of any opinions, comments or interference from WhaleShark or any of the other Chief Partners, and completed in an impartial and objective manner.

1. Changes to the monthly budget distribution allocation.
2. Creation of $WHALE Community events.
